

ANKIT VISHWAKARMA

Full Stack Developer | Senior Software Engineer

Pratapgarh, Uttar Pradesh, India | +91 8112656226 | av841344@gmail.com

Notice Period: Serving Notice Period — Last Working Day: 10 November 2026 | Immediate joiner if released early (7-day buyout possible with offer)

PROFESSIONAL SUMMARY

Full Stack Developer and Senior Software Engineer with 4+ years of experience designing, building, and shipping full-stack web applications using JavaScript, React.js, Node.js, Express.js, Angular, MongoDB (MERN/MEAN stacks), and Laravel/PHP, deployed on AWS (EC2, SES, SNS). Experienced integrating OpenAI and third-party LLM APIs to build AI-powered features, including real-time chat systems over WebSockets, and in using AI-assisted development tools such as Cursor and Claude AI to speed up delivery. Skilled at owning features end-to-end — architecture, RESTful API design, CI/CD deployment, Linux server administration, and production support. Track record of leading cross-functional teams, mentoring junior engineers, and delivering enterprise systems and client platforms across cleaning services, facilities management, entertainment, fintech, and travel domains.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, SQL, HTML5, CSS3, Bash

Frontend Development: React.js, Angular, Vue.js, HTML5, CSS3, Bootstrap 5, jQuery, Alpine.js

Backend Development: Node.js, Express.js, Laravel, PHP, RESTful API Design, WebSockets

Databases: MySQL, MongoDB, Oracle Database

Cloud & DevOps: AWS (EC2, SES, SNS), CI/CD Pipelines, Linux Server Administration, SSH, Bash Scripting, Nginx, Apache, SSL Configuration

AI & LLM Integration: OpenAI API, Third-Party LLM Integration, Prompt Engineering, AI-Assisted Development (Cursor, Claude AI)

Tools & Practices: Git/GitHub, Postman, Code Review, Agile Collaboration, Mentoring

Also Familiar With: Java (basic), Python (basic)

PROFESSIONAL EXPERIENCE

Senior Software Engineer

06/2022 – Present

Jamtech Technology Pvt. Ltd, Lucknow, India

- Build and ship full-stack web applications across the MERN (MongoDB, Express.js, React.js, Node.js) and MEAN (MongoDB, Express.js, Angular, Node.js) stacks and Laravel/PHP, delivering scalable features on AWS (EC2, SES, SNS).
- Integrate OpenAI and third-party LLM APIs to build AI-powered product features, including real-time chat over WebSockets.
- Use AI-assisted development tools such as Cursor and Claude AI to accelerate coding, debugging, and code review workflows.
- Design, build, and automate CI/CD deployment pipelines using SSH and Bash scripting for Linux server provisioning, deployment, and release automation.
- Configure and maintain Nginx/Apache servers and SSL certificates to ensure secure, high-availability production environments.
- Lead code reviews to ensure alignment with software architecture, design principles, and engineering best practices.
- Mentor junior developers on coding techniques, testing methodologies, and professional development workflows.
- Troubleshoot and resolve complex technical defects, improving system stability and application performance.
- Partner with cross-functional teams and clients to gather requirements, define technical specifications, and ensure on-time delivery.

Apprentice

04/2022 – 06/2022

Softpro India Computer Technologies (P) Ltd., Lucknow, India

- Completed an intensive full-stack web development apprenticeship covering HTML, CSS, JavaScript, and Oracle Database fundamentals.
- Assisted senior development teams in building backend components using Java and Python.
- Participated in summer training initiatives and corporate workshops, strengthening technical troubleshooting and communication skills.

KEY PROJECTS

AI-Powered Hiring Sentiment Analysis Platform — Sentimeter AI | *React.js, Node.js, Express.js, MongoDB, OpenAI API, WebSockets*

- Built an AI-driven hiring sentiment analysis platform (sentimeter.ai) using the OpenAI LLM to evaluate candidate responses and interview conversations in real time.
- Implemented a real-time chat interface using WebSockets for live, low-latency conversation between candidates and the AI system.
- Integrated OpenAI and third-party LLM APIs for natural language understanding, sentiment scoring, and automated response generation.
- Designed the backend architecture to handle concurrent chat sessions, API calls, and data persistence, ensuring reliable performance under load.

Colossians Cleaning & Care Services — Client Portal & CRM (UK) | *React.js, Node.js, Laravel, MySQL*

- Developed a full-stack client and staff login portal (app.colossianscleaningservices.com) for managing cleaning service bookings and user accounts.
- Built a CRM system (crm.colossianscareservices.co.uk) with a separate development/staging environment for care services scheduling, client records, and staff management.
- Implemented authentication, role-based access, and RESTful APIs to support both the public-facing app and internal CRM.

Keystone FM — Facilities Management CRM (UK) | *Angular, Node.js, Express.js, MySQL*

- Built the public-facing site and a super-admin CRM dashboard (crm.keystonefm.co.uk) for a UK commercial cleaning and facilities management company.
- Developed admin features for managing service requests, client accounts, and operational reporting.

Nollywood Verified — Talent & Casting Platform | *React.js, Node.js, MongoDB, AWS SES*

- Built a platform connecting verified cast, crew, and producers across Nigeria and the diaspora for casting and hiring.
- Implemented verified-profile workflows tying real identities to cast/crew/producer accounts, along with hiring and casting call features.

SwapCircle — Trading Platform Admin Portal | *React.js, Node.js, Express.js, MongoDB*

- Developed the admin portal (portal.swapcircle.trade/admin) for a trading platform, including dashboards for monitoring platform activity and managing users.

SOW Finance — Fintech Web Application | *React.js, Node.js, MySQL, AWS*

- Contributed to the development of a fintech web application (sow.finance), building front-end interfaces and backend API integrations.

Shakti Travels & Tours — Travel Booking Website | *PHP, Laravel, MySQL, jQuery*

- Built a travel and tours booking website (shaktitravelsandtours.com) with service listings and customer inquiry handling.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering 07/2025 - Present

Dr. MC Saxena College of Engineering, Lucknow, India

Diploma, Computer Science & Engineering 07/2018 - 07/2022

Government Polytechnic Mohammadi Kheri, Lakhimpur, India

CERTIFICATIONS & ADDITIONAL INFORMATION

- Scout Member, Grade A+ — Certificate of Completion (Good Performance)
- Summer Training Certificate — Good Performance

Languages: Hindi (Native), English (A1 – Beginner)
